

THE FINEST BUBBLE

PRESTIGE CHAMPAGNES
SAME DAY LONDON DELIVERY

FOR IMMEDIATE RELEASE – SEPTEMBER 2014

THE FINEST BUBBLE – PRESTIGE CHAMPAGNE SAME DAY DELIVERY IN LONDON & NEXT DAY REST OF UK

This week sees the official launch of a new premium Champagne delivery service, **The Finest Bubble**. The new venture lists only prestige Champagnes, which are all available for **same day delivery** in London and next day in the rest of the country.

The majority of the range is available 'Gift Packed' so ideal to send to someone for that special occasion. The customer is also able to enquire about Champagnes that are not on the list and **The Finest Bubble** will (if the Champagne is available) source it, confirm the pricing and deliver within 7 working days.

All of the fine and often rare champagnes are kept in optimum conditions. The bottles are stored and protected from potential damage by light and heat. Prior to purchase, the Champagne is either kept in a temperature controlled bonded warehouse, or in the specialist Eurocave fridge to ensure that it arrives in the best possible condition.

To cut a long story short **Nick Baker**, Founder of TFB, talked to several of his friends and they too were quite discouraged by the lack of prestige Champagnes available in the stores and the prohibitive quantity that you would need to order if buying directly from the Champagne Houses. Nick comments, "My love and passion for Champagne had continued after leaving the wine trade and I was finding it hard to get hold of the bottles I so enjoyed drinking. I therefore selected and ordered some special Champagnes from some of the top producers and shared them with friends who benefitted from the cost savings when ordering larger quantities direct from the producer/importer."

"It was soon obvious as the word got around, that this could be a business model. Today sees the launch of **The Finest Bubble**, and these stunning Champagnes are available to more than just my friends!"
